Turn on the power.

Now You Can Hook Up To Your Sega™

For the first time ever, Teenage Mutant Ninja Turtles®-The Hyperstone Heist™ from Konami® plunges the Turtles headlong into the shell-shocking world of Sega™ Genesis™. Dare to take this all new adventure on solo or double dare to duke it out with a partner and you're in for a ninjitsu jolt of action that'll leave you green! Will all

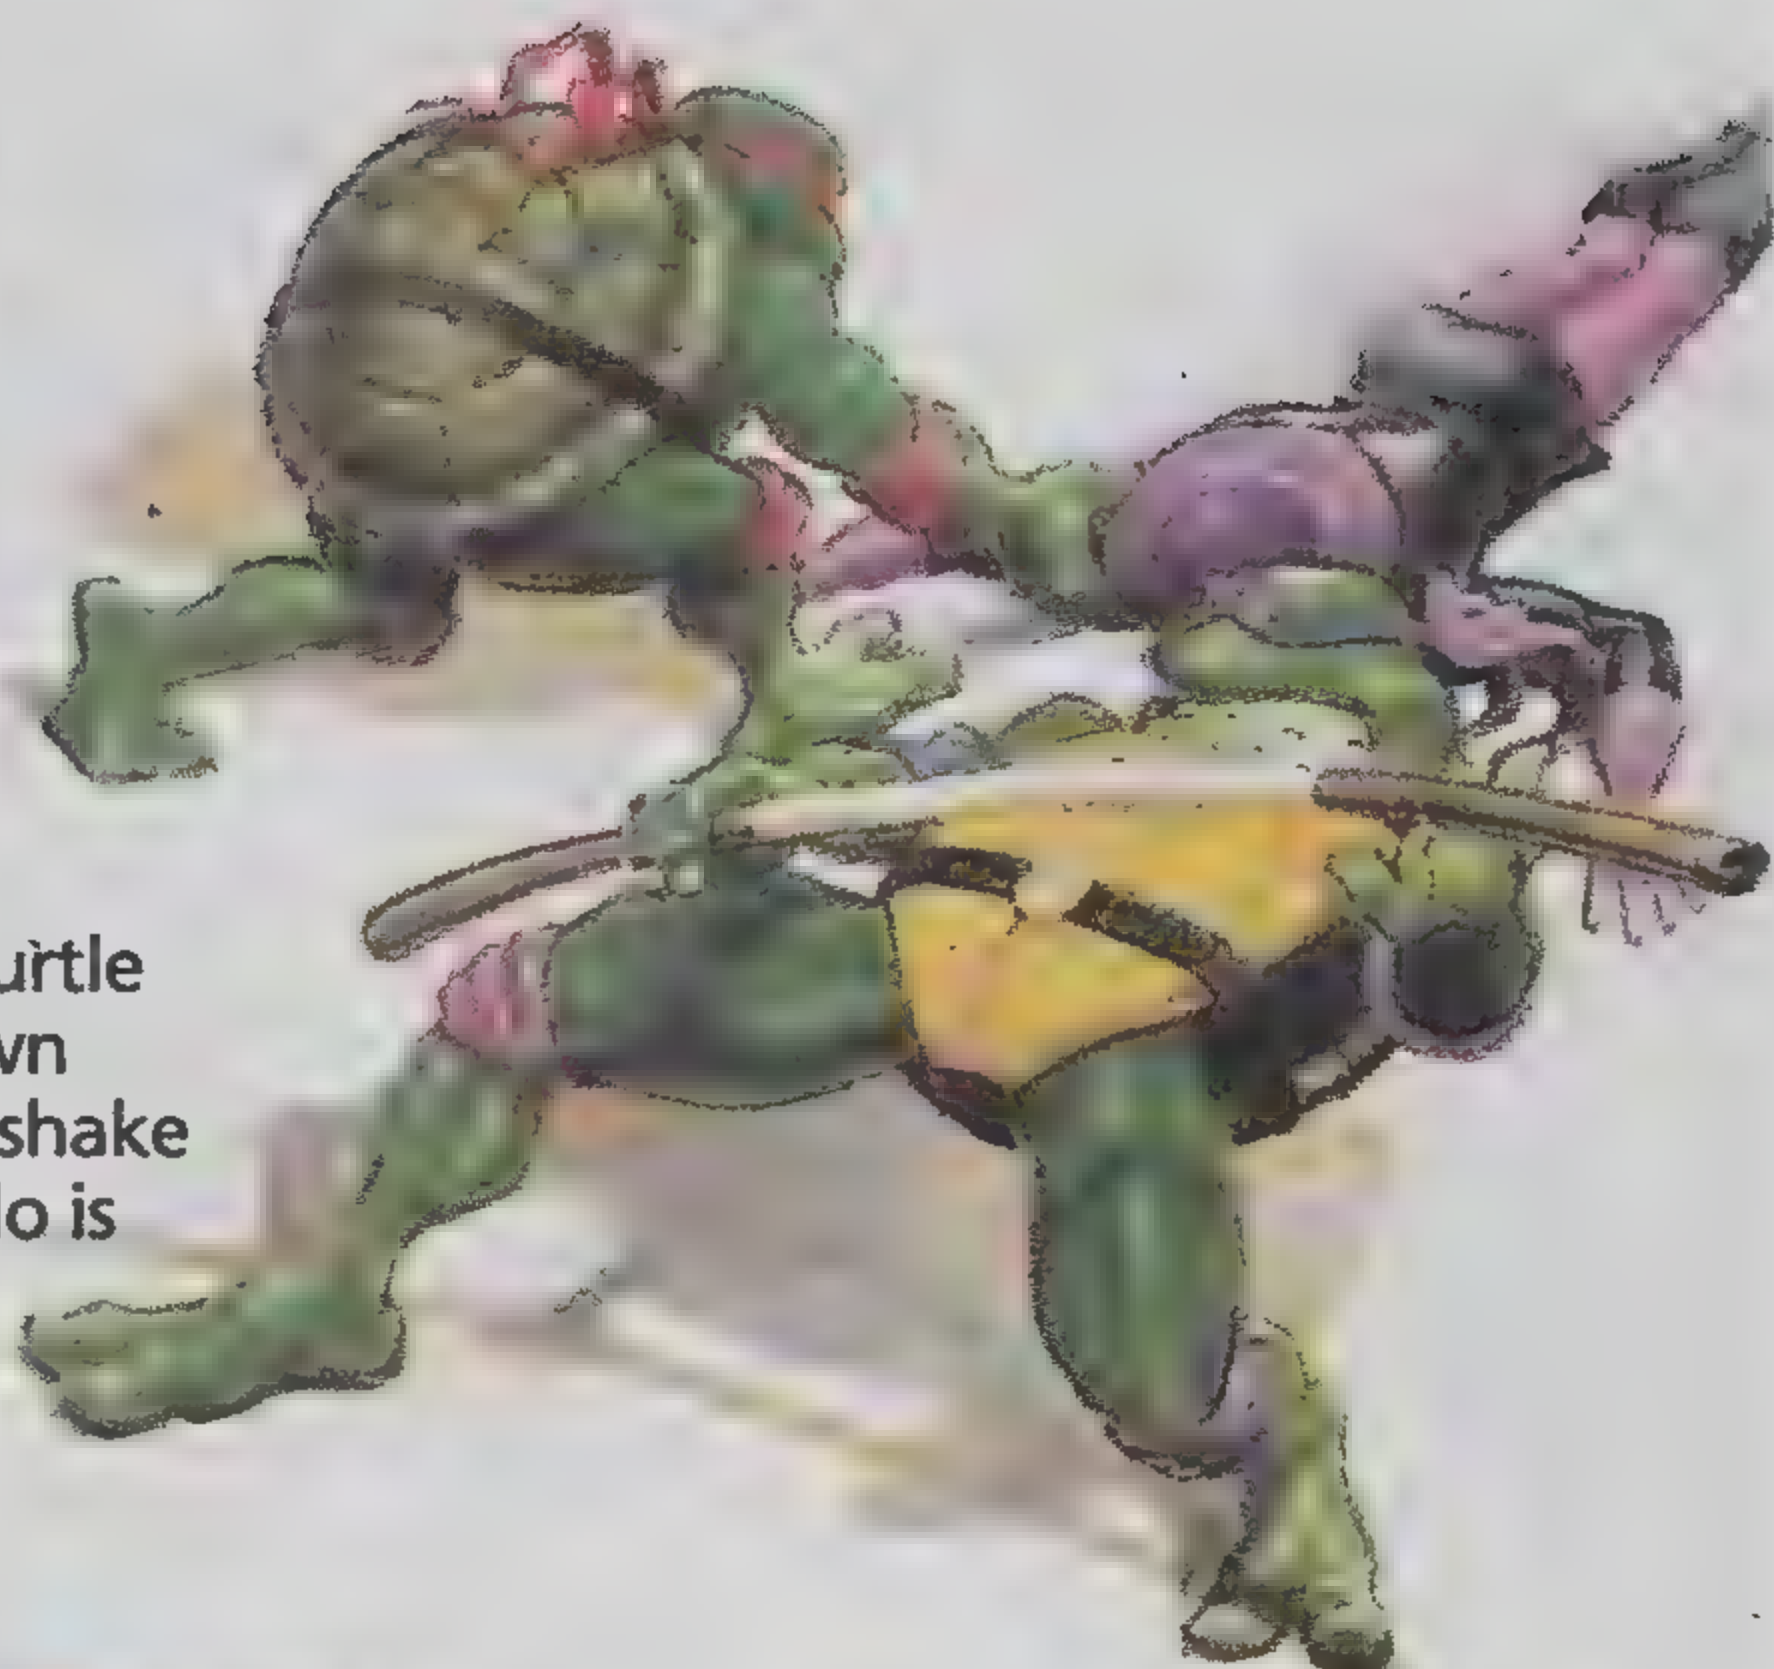

this awesome power go to our heroes' heads? The quick-kicking quartet is on the hot seat again thanks to that mondo master of mayhem Shredder, and this could be Sayonara, dudes. Shredder stole the Hyperstone, a gem with the power to shrink New York City. Now catch that totally bogus bully before he makes the whole world small. Uncool!

KONAMI®

The Turtles Genesis.™

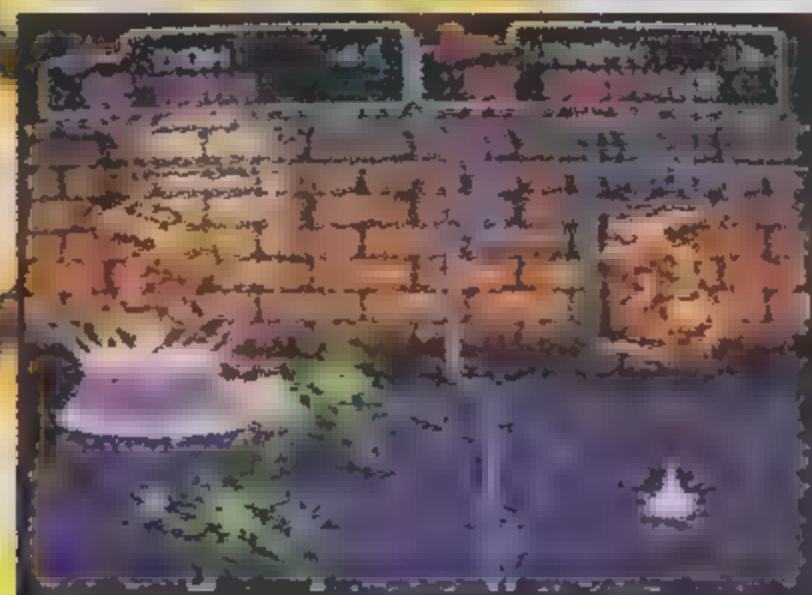

You've got all four majorly hip mutants, so choose whichever Turtle flips your switch. Each has his own bodacious new attack moves to shake down the Shred-heads. Donatello is much more than hot air with his Hurricane Attack and Raphael's Vacuum Slice really cleans up.

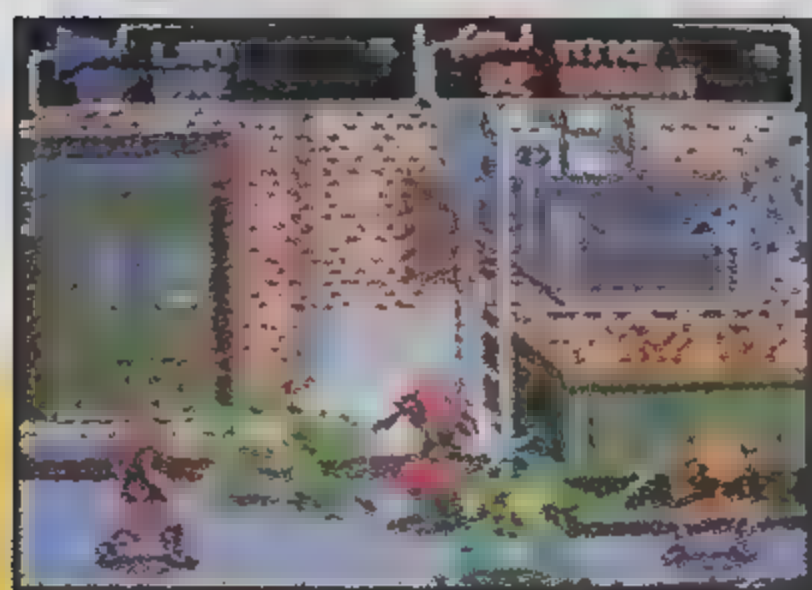

Experience most excellent 3-D effects in a geek fest that never lets up through 5 mondo body-slamming levels. Four levels each have 3 heinous stages to survive and the other is loaded with the most intense new challenges you've ever seen.

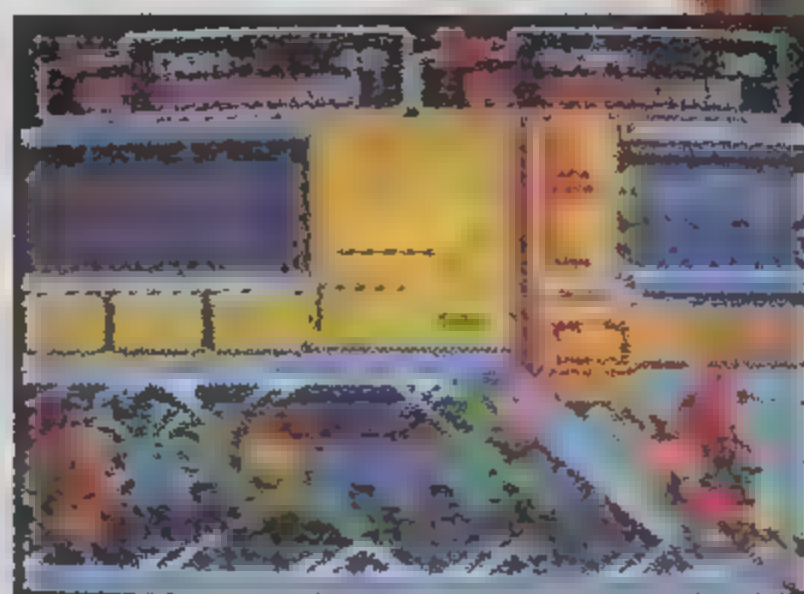

Slug it out in the sewers, do dirty deeds downtown, grind them up on a ghost ship, surf through treacherous ocean waters and even ninja till you drop.

Make it through all this ninja nastiness and Shredder will curse the Cowabunga battle cry. But then you must

face that Duke of Dweebs on his own turf. Hang tough because he'd love to have you at his place for some fried Turtle legs!

"FOOD MOOD"

Editor's NOTEBOOK

Dear Archie Readers,

If you read my column last month (if you didn't then no more home-work for you), I mentioned some upcoming plans for one of the Archie characters to get a sister or brother. Have you given any thought to who you'd like to see the lucky one? Should it be Archie, Veronica, Jughead, Reggie, Moose or Dilton? Remember, Betty already has a sister and a brother. I know it's not an easy choice to make but I have faith in you. Your opinion is important, plus, I could use your help. So drop me a line today before you go shopping for the holidays.

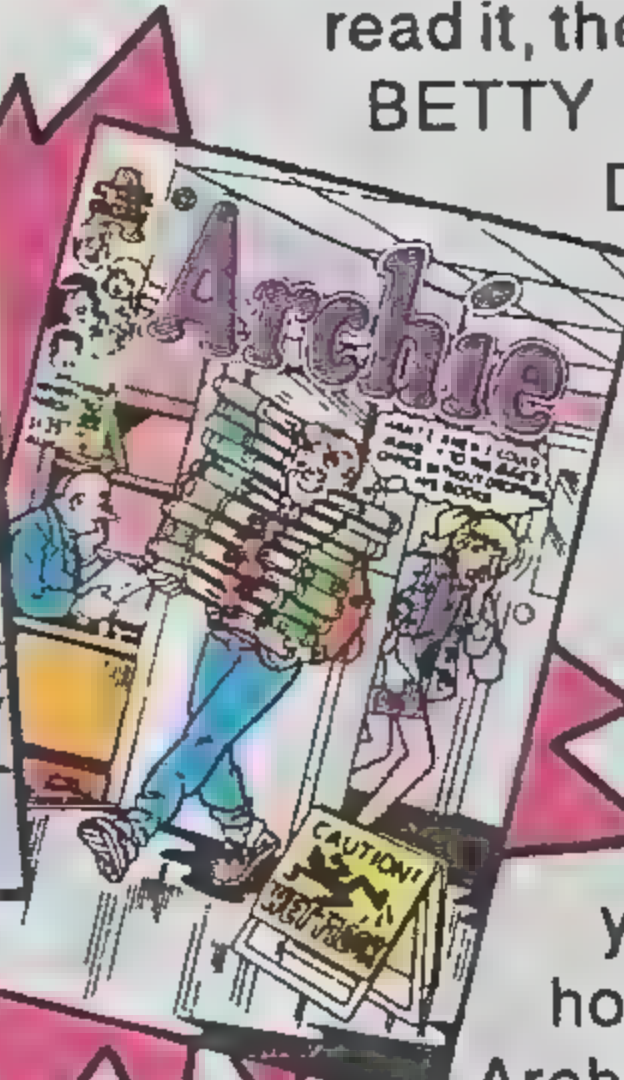

...And speaking of the holidays, I hope you have your copies of BETTY & VERONICA SPECTACULAR #2 and WORLD OF ARCHIE #3. Those are two of the best Christmas specials ever. Hopefully there are still some copies left at the newsstand or your local comic shop. Check 'em

out, guys! Next month we have some really funny issues coming out. ARCHIE #409, on sale January 5th, is what I refer to as the "klutzy issue." All the stories in this book feature Archie at his "klutziest." After you read this, you'll never cry over spilled milk again. If your parents read it, they'll definitely love you more.

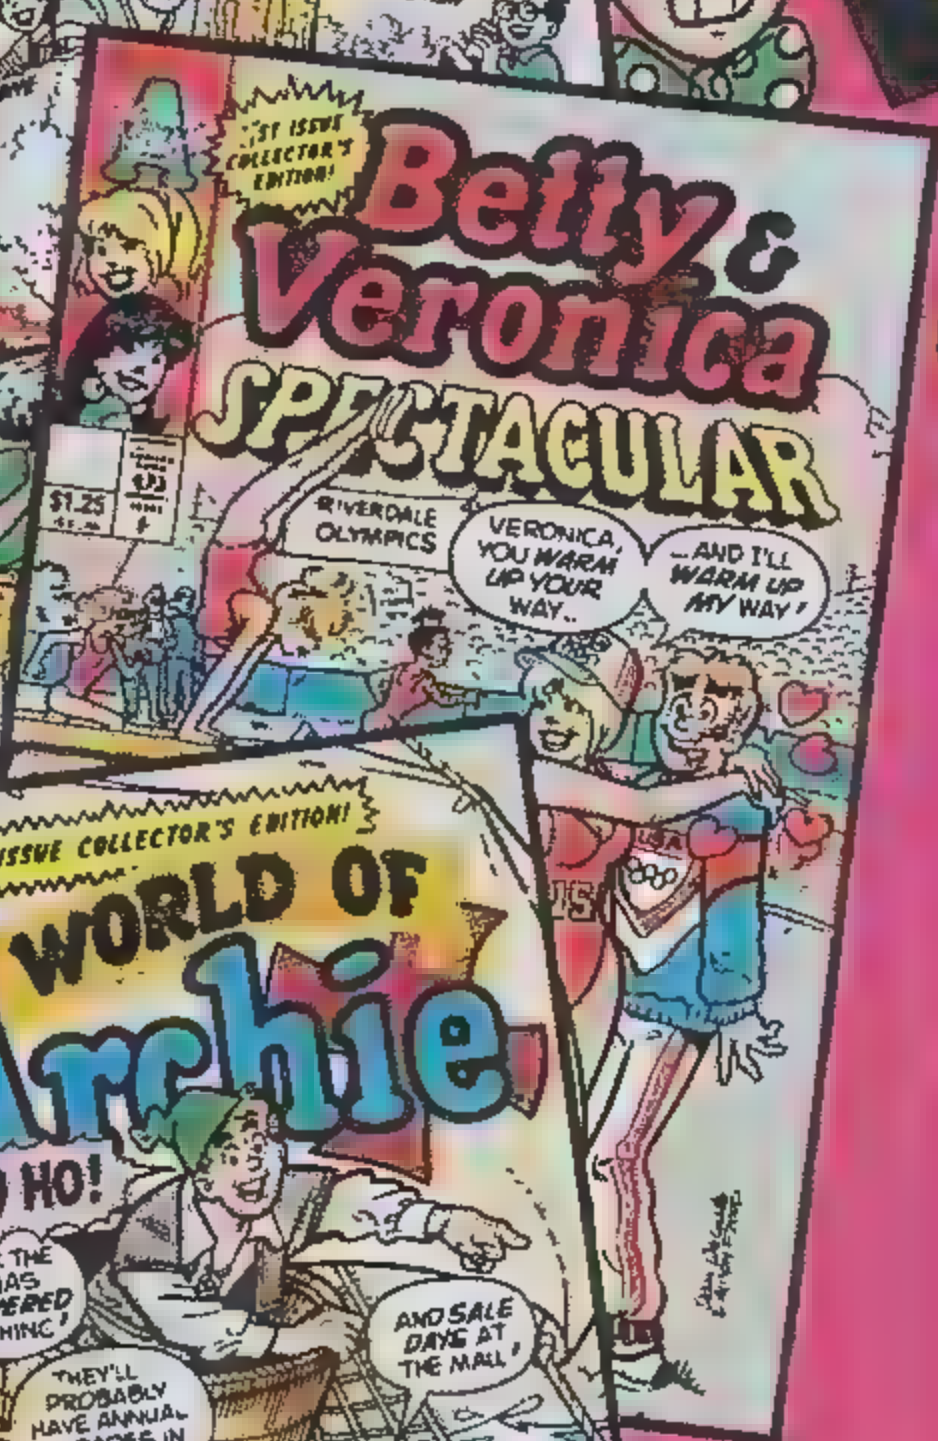

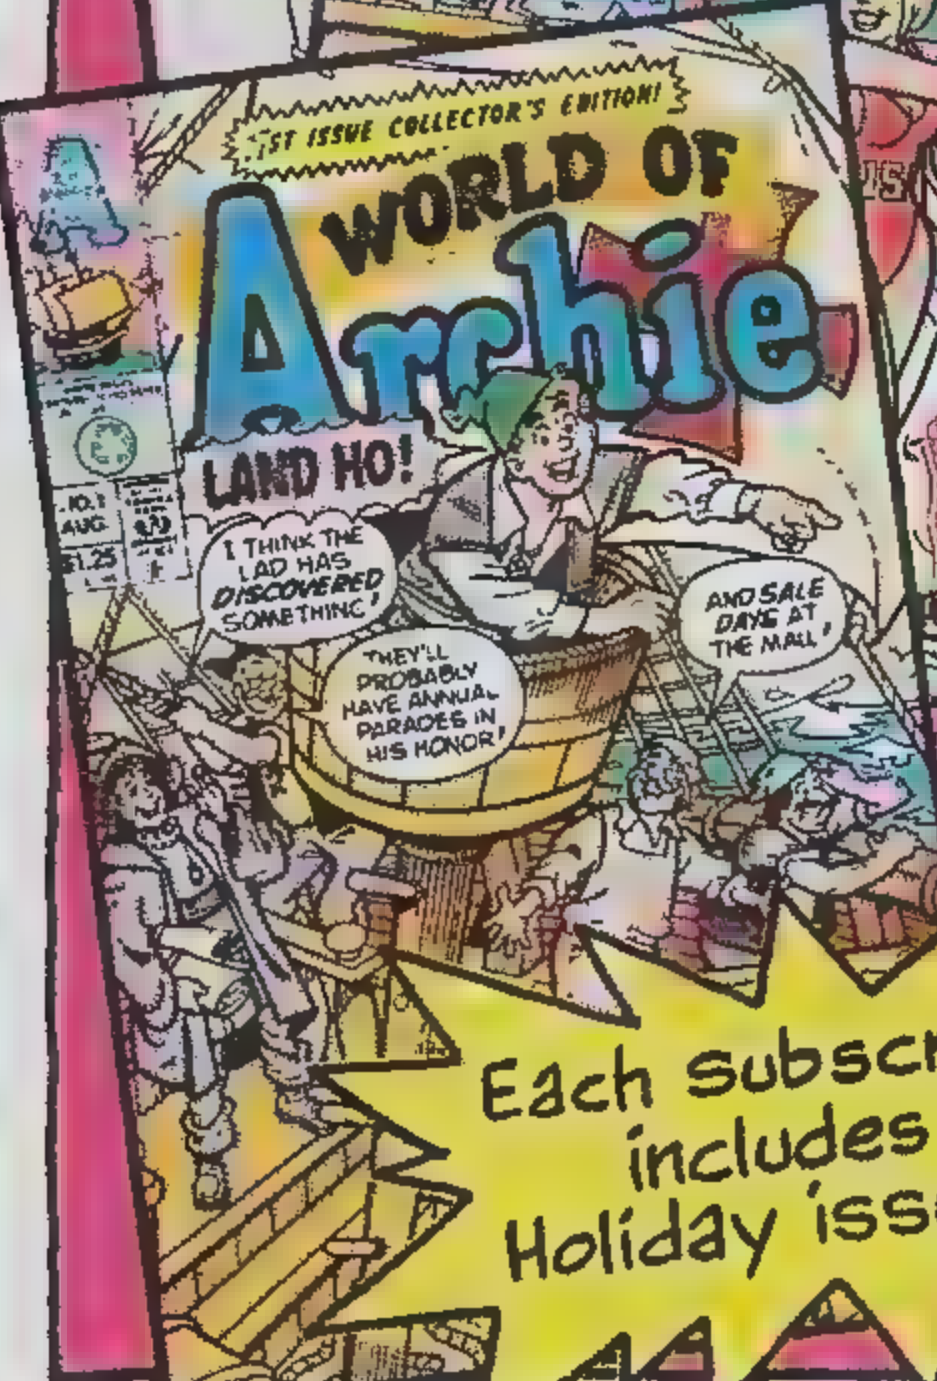

BETTY & VERONICA #61, on sale December 22, is our "Happy New Year" extravaganza. Picture this, dudes... Betty and Veronica sticking to New Year's resolutions?... over Archie? Try it! You may not believe it, but you'll like it.

In closing, I hope all your wishes come true this holiday season and always. If Archie comics helped you laugh when you were sad, or if they were there when you needed some friends, you made *my* wish come true. Happy Holidays!

SPONGES

I used to think that sponges were the same brightly colored, kitchen sponges I use to clean counters. They're not! A "real" sea sponge is an animal with tons of little holes -- "in" holes and "out" holes so water can be channeled through its body. This water provides the sponge with food and oxygen. There are many species of sponges. Some grow like plants with branches. Some just grow to be totally shapeless and irregular. but all of them are completely unable to move.

1ST PRIZE
\$10.00

They attach themselves either to a coral reef or a rocky shorebottom. Sponges also vary in color. The deep sea version is brownish. The coral reef sponge is bright red. Freshwater sponges, of which there are few types, are bright green, like algae.

2ND PRIZE
\$5.00

RECYCLE

Did you know that each person in the US uses enough wood products per year to equal a 100 foot tree with a diameter of 16 inches? That totals 230 million healthy trees sacrificed yearly. Think about it! 35 million trees could be saved yearly if 75% of waste paper and cardboard was recycled.
